## WORK EXPERIENCE

### A9.COM, AMAZON SEARCH | APPLIED SCIENTIST INTERN (SEARCH RELEVANCE)

Jun 2019 – Sep 2019 | Palo Alto, CA

- Conceptualized and constructed data pipelines for new, granular metrics for Amazon search relevance models. Processed ~1B queries and ~20B item responses to obtain dataset for predictive modeling.
- Built a model based on these pre-experiment metrics to predict performance on live customer traffic, so that experimental bandwidth can be allocated more efficiently. Model improved test performance metric by 20% over baseline.

### STANFORD UNIVERSITY | INSTRUCTOR & TEACHING ASSISTANT

Sep 2016 – Present | Stanford, CA

- Coached first-year statistics PhD students for qualification examination in applied statistics. 100% pass rate.
- Developed new material for and taught "Introduction to R" course for undergraduates 3 times. 94% of students described instruction of the course as "Excellent" or "Good".

### INFOCOMM DEVELOPMENT AUTHORITY | DATA SCIENTIST (DATA SCIENCE DIVISION)

Oct 2015 – Aug 2016 | Singapore

- Spearheaded engagements with a wide array of government agencies (economic, transport, social) to analyze their data to support public policymaking. Responsibilities included project scoping, data cleaning, visualization, statistical analysis and presentation of results.
- Systematized and tested recruitment framework and materials for all roles in the division, including data scientist, quantitative strategist and front-end developer.
- Developed division's operating policy for data management and statistical disclosure control.

### MINISTRY OF THE ENVIRONMENT & WATER RESOURCES | ASSISTANT DIRECTOR (ENVIRONMENTAL POLICY DIVISION)

Sep 2013 – Sep 2015 | Singapore

- Drove progressive policies to ensure sustainability and efficiency of Singapore's waste management system.
- Evaluated usefulness of movement data in predicting spread of Chikungunya virus in Singapore.
- Chairman of Staff Well-Being Committee (Apr 2014 - Mar 2015): Led team of 10 officers in conceptualizing and executing activities to improve staff welfare and morale. Also managed and accounted for budget (20K+) for staff welfare.

### MINISTRY OF DEFENSE | INFOCOMM TECHNOLOGIES ENGINEER

Apr 2012 - Aug 2013 | Singapore

- Evaluated operational performance of critical intelligence systems.
- Made performance more transparent by developing and implementing a new reporting dashboard for senior management.
- Strengthened in-house user adoption of systems through crafting and delivering technical presentations.
